**Most people only
notice the condition of
their tile, stone and other
hard surfaces when they
become visibly soiled.**

**But by the time it's finally
noticeable, layer upon layer
of stains, bacteria, and
mineral deposits will have built-up into
a mess you can't clean on your own.**

We believe in integrity. Look us up on ethicalservices.com

**Don't spend hours on your knees scrubbing
to clean your tile and grout floors!**

We also do carpet & upholstery cleaning, window cleaning & gutter cleaning.

Danny Thomas Pro-Clean

Why have your gutters cleaned?

When gutters have debris piled up above the flashing or shingle line, the debris can hold moisture on the fascia boards - the horizontal boards at the end of the roof overhang.

The moisture can also affect the roof sheathing and framing beyond the fascia. This moisture can cause dry rot, ice dams and a variety of other problems.
